

I would like for The FCC to remember that Satelite Radio customers, pay for the service and the equipment. I love the conveince and ablity to listen to the same station when traveling. I am still able to get weather and traffic reports which help in effiecient travel time. This service on FM or AM are not as accurate and hard to find in Cities you are not familiar with.

It should not be up to the National Association of Broadcasters to dictate what I are permitted to hear. Respectfully I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
